

IAN SIATS

Full-Stack Web Developer

iansiats9@gmail.com | Colorado, USA | github.com/Turbo9k | iansiats.vercel.app

PROFESSIONAL SUMMARY

Full-Stack Web Developer with hands-on experience building and deploying production-ready web applications. Strong focus on modern JavaScript, React, Next.js, and backend APIs. Experienced with authentication systems, payment processing, real-time features, and responsive UI design. Committed to writing clean, maintainable code and continuously improving engineering skills.

FEATURED PROJECTS

Full-Stack E-Commerce Platform

Built and deployed a production-style e-commerce application supporting secure checkout, inventory management, and order tracking. Implemented Stripe payments with webhook validation, RESTful APIs with authentication, and a PostgreSQL schema optimized for performance.

Tech Stack: React, Node.js, Express, PostgreSQL, Stripe, JWT Auth, Tailwind CSS

Live: ecommerce-store-mu-five.vercel.app | GitHub: github.com/Turbo9k/Ecommerce

Task Management Application

Developed a real-time collaborative task management platform with multi-user synchronization.

Implemented Socket.io for live updates, role-based access control, and REST APIs for task and project management.

Tech Stack: Vue.js, Node.js, Express, Socket.io, MySQL, RBAC

Live: task-managment-mauve.vercel.app | GitHub: github.com/Turbo9k/Task_managment

Enterprise Admin Dashboard

Engineered a full-stack admin dashboard featuring JWT authentication, RBAC, and dynamic data visualization. Built using Next.js App Router and TypeScript for scalable, type-safe development.

Tech Stack: Next.js, TypeScript, Tailwind CSS, MongoDB, JWT Auth

Live: cognivex.vercel.app | GitHub: github.com/Turbo9k/cognivex

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript (ES6), HTML5, CSS3, Tailwind CSS

Backend & Databases: Node.js, Express, REST APIs, PostgreSQL, MongoDB, JWT Auth

Tools: Git, GitHub, Vercel, Stripe, Docker (basic), Postman, Figma, AI-assisted development workflows

EDUCATION & LEARNING

Self-Directed Full-Stack Web Development (2022 – Present)

Focused on modern JavaScript frameworks, backend APIs, and real-world application development.
